SCHOOL-DEVELOPED · NESA-ALIGNED

Year 10 Graphics Technology

Teacher program · four-term source sequence · course-aligned release

Version / issue	v1.0.0 · 30 August 2026	**Delivery year**	2026 — confirmed
Selected syllabus	Graphics Technology Years 7–10 Syllabus (2019)	**Implementation**	Graphics Technology 2019 / GT5 selected for 2026; Communication Technology 2025 may be adopted early in 2026–2027 and is mandatory from 2028
Course scope	Stage 5 elective · Year 10 component · four terms	**Duration / timetable**	Exact periods/hours and 100-hour or 200-hour status — Teacher to confirm

Authority and use boundary. This is a school-developed program backward-mapped from the integrated course. It does not imply NESA endorsement. Follow current teacher-issued plans, licensed standards, local WHS controls and approved assessment notifications.

Official NESA syllabus page · **Current WWHS Assessment Handbooks**

Official Stage 5 outcomes — exact wording

Code	A student
GT5-1	communicates ideas graphically using freehand sketching and accurate drafting techniques
GT5-2	analyses the context of information and intended audience to select and develop appropriate presentations
GT5-3	designs and produces a range of graphical presentations
GT5-4	evaluates the effectiveness of different modes of graphical communications for a variety of purposes
GT5-5	identifies, interprets, selects and applies graphics conventions, standards and procedures in graphical communications
GT5-6	manages the development of graphical presentations to meet project briefs and specifications
GT5-7	manipulates and produces images using digital drafting and presentation technologies
GT5-8	designs, produces and evaluates multimedia presentations
GT5-9	identifies, assesses and manages relevant WHS factors to minimise risks in the work environment
GT5-10	demonstrates responsible and safe work practices for self and others
GT5-11	demonstrates the application of graphics to a range of industrial, commercial and personal settings
GT5-12	evaluates the impact of graphics on society, industry and the environment

Teacher to confirm before use: timetable pattern and total course hours; 100-hour/200-hour classification and prior Core Modules 1–2 coverage; current local practical/WHS instructions; exact issued assessment dates, criteria and submission conditions.

Evidence, feedback and support. Use option-specific feedback after deliberate checking, keep retries open, review each capstone against its success criteria, and treat browser-local records as learning evidence unless the current teacher directs otherwise.

Practical and workplace control. Drawing, CAD and project production must use current teacher-approved sources, facilities and procedures. Do not infer dimensions, tolerances, standards access, equipment, PPE, approval or public-release permission from this program or website.

Teaching sequence · P1–P9 · Graphic Design & Communication

P is an ordered program sequence point. The number and length of timetable lessons used for each point remain Teacher to confirm; rows expand during delivery through the register.

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
1	**Site/theory**	Safety signs and visual conventions	Teach the named theory; model the key graphics decision; use three visuals and the complete media pathway. **Open theory**	Identify and apply standard symbols and related conventions in graphic-design and communication contexts.	Questioning + one visible observation. GT: GT5-2, GT5-4, GT5-5, GT5-9, GT5-10, GT5-11
2	**Practical**	Apply: Safety signs and visual conventions	Complete the linked activity, then apply its decision process in a supervised graphics task using current sources. **Open activity**	Recognise the significance of standard symbols in international, multilingual and cultural communication.	Saved activity practice + one teacher-checked graphics record. GT: GT5-2, GT5-4, GT5-5, GT5-9, GT5-10, GT5-11
3	**Project/folio**	Retain: Safety signs and visual conventions	Check 10 MCQs, draft the capstone and retain one purposeful folio record.	Identify WHS issues related to graphics products and processes and demonstrate safe and responsible practices.	10 checked MCQs + capstone + selected folio evidence. GT: GT5-2, GT5-4, GT5-5, GT5-9, GT5-10, GT5-11 **Check · Folio**
4	**Site/theory**	Vector graphics and Illustrator workflows	Teach the named theory; model the key graphics decision; use three visuals and the complete media pathway. **Open theory**	Select and use file formats and image sizes suitable for print and digital-media projects.	Questioning + one visible observation. GT: GT5-1, GT5-3, GT5-5, GT5-7, GT5-11
5	**Practical**	Apply: Vector graphics and Illustrator workflows	Complete the linked activity, then apply its decision process in a supervised graphics task using current sources. **Open activity**	Apply geometric construction techniques to the development of graphical images such as logos and pictograms.	Saved activity practice + one teacher-checked graphics record. GT: GT5-1, GT5-3, GT5-5, GT5-7, GT5-11
6	**Project/folio**	Retain: Vector graphics and Illustrator workflows	Check 10 MCQs, draft the capstone and retain one purposeful folio record.	Use appropriate manual and digital processes to produce graphic designs for a given situation.	10 checked MCQs + capstone + selected folio evidence. GT: GT5-1, GT5-3, GT5-5, GT5-7, GT5-11 **Check · Folio**
7	**Site/theory**	Design principles, audience, culture and intellectual property	Teach the named theory; model the key graphics decision; use three visuals and the complete media pathway. **Open theory**	Apply composition, proportion, balance, tone and contrast to print and digital media.	Questioning + one visible observation. GT: GT5-1, GT5-2, GT5-4, GT5-6, GT5-8, GT5-12
8	**Practical**	Apply: Design principles, audience, culture and intellectual property	Complete the linked activity, then apply its decision process in a supervised graphics task using current sources. **Open activity**	Explore the use and protection of localised signs and symbols in Aboriginal and Torres Strait Islander cultural expression.	Saved activity practice + one teacher-checked graphics record. GT: GT5-1, GT5-2, GT5-4, GT5-6, GT5-8, GT5-12
9	**Project/folio**	Retain: Design principles, audience, culture and intellectual property	Check 10 MCQs, draft the capstone and retain one purposeful folio record. Complete the module puzzle and review.	Investigate cultural knowledge and heritage, trademarks and copyright in the production and reproduction of communication graphics.	10 checked MCQs + capstone + selected folio evidence. GT: GT5-1, GT5-2, GT5-4, GT5-6, GT5-8, GT5-12 **Check · Folio**

Assessment boundary. Current 2026 schedule: Graphic Design and Communication, Term 1 Week 10, 35%; draft notification requires teacher approval.

Teaching sequence · P10–P18 · Architectural Drawing

P is an ordered program sequence point. The number and length of timetable lessons used for each point remain Teacher to confirm; rows expand during delivery through the register.

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
10	**Site/theory**	Spatial planning and architectural research	Teach the named theory; model the key graphics decision; use three visuals and the complete media pathway. **Open theory**	Apply architectural drawing types to concept-design situations for communication with clients.	Questioning + one visible observation. GT: GT5-1, GT5-2, GT5-3, GT5-6, GT5-12
11	**Practical**	Apply: Spatial planning and architectural research	Complete the linked activity, then apply its decision process in a supervised graphics task using current sources. **Open activity**	Research and develop architectural designs using ICT as appropriate.	Saved activity practice + one teacher-checked graphics record. GT: GT5-1, GT5-2, GT5-3, GT5-6, GT5-12
12	**Project/folio**	Retain: Spatial planning and architectural research	Check 10 MCQs, draft the capstone and retain one purposeful folio record.	Investigate environmental issues relating to architecture and design ecologically sustainable architectural spaces.	10 checked MCQs + capstone + selected folio evidence. GT: GT5-1, GT5-2, GT5-3, GT5-6, GT5-12 **Check · Folio**
13	**Site/theory**	CAD drafting, drawing views and conventions	Teach the named theory; model the key graphics decision; use three visuals and the complete media pathway. **Open theory**	Apply AS 1100.301 architectural-drawing conventions, scales, graphical symbols and units as authorised by current sources.	Questioning + one visible observation. GT: GT5-3, GT5-5, GT5-7, GT5-11
14	**Practical**	Apply: CAD drafting, drawing views and conventions	Complete the linked activity, then apply its decision process in a supervised graphics task using current sources. **Open activity**	Produce site or block plans, floor plans, standard elevations and sections for architectural purposes.	Saved activity practice + one teacher-checked graphics record. GT: GT5-3, GT5-5, GT5-7, GT5-11
15	**Project/folio**	Retain: CAD drafting, drawing views and conventions	Check 10 MCQs, draft the capstone and retain one purposeful folio record.	Generate two-dimensional drawings and three-dimensional models using CAD, linking related drawings as a coordinated set.	10 checked MCQs + capstone + selected folio evidence. GT: GT5-3, GT5-5, GT5-7, GT5-11 **Check · Folio**
16	**Site/theory**	Sustainability, building context and professional roles	Teach the named theory; model the key graphics decision; use three visuals and the complete media pathway. **Open theory**	Explore the roles of professionals in architecture and the building industry.	Questioning + one visible observation. GT: GT5-2, GT5-4, GT5-9, GT5-10, GT5-11, GT5-12
17	**Practical**	Apply: Sustainability, building context and professional roles	Complete the linked activity, then apply its decision process in a supervised graphics task using current sources. **Open activity**	Investigate related authorities, statutory requirements, building codes and approval requirements without claiming that classroom work proves compliance.	Saved activity practice + one teacher-checked graphics record. GT: GT5-2, GT5-4, GT5-9, GT5-10, GT5-11, GT5-12
18	**Project/folio**	Retain: Sustainability, building context and professional roles	Check 10 MCQs, draft the capstone and retain one purposeful folio record. Complete the module puzzle and review.	Investigate environmental issues and current building practices in the design of ecologically sustainable architectural spaces.	10 checked MCQs + capstone + selected folio evidence. GT: GT5-2, GT5-4, GT5-9, GT5-10, GT5-11, GT5-12 **Check · Folio**

Assessment boundary. Current 2026 schedule: Architectural Drawing, Term 2 Week 8, 35%; exact date, criteria and submission remain Teacher to confirm.

Teaching sequence · P19–P27 · Engineering Drawing

P is an ordered program sequence point. The number and length of timetable lessons used for each point remain Teacher to confirm; rows expand during delivery through the register.

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
19	**Site/theory**	Projection systems and freehand communication	Teach the named theory; model the key graphics decision; use three visuals and the complete media pathway. **Open theory**	Communicate engineering details of an existing component through freehand sketching.	Questioning + one visible observation. GT: GT5-1, GT5-2, GT5-3, GT5-5
20	**Practical**	Apply: Projection systems and freehand communication	Complete the linked activity, then apply its decision process in a supervised graphics task using current sources. **Open activity**	Use sketches to plan component assemblies and drawing layouts.	Saved activity practice + one teacher-checked graphics record. GT: GT5-1, GT5-2, GT5-3, GT5-5
21	**Project/folio**	Retain: Projection systems and freehand communication	Check 10 MCQs, draft the capstone and retain one purposeful folio record.	Apply sectioning or auxiliary-view techniques where they add necessary information.	10 checked MCQs + capstone + selected folio evidence. GT: GT5-1, GT5-2, GT5-3, GT5-5 **Check · Folio**
22	**Site/theory**	CAD modelling, materials and manufacturing	Teach the named theory; model the key graphics decision; use three visuals and the complete media pathway. **Open theory**	Investigate 2D drafting and solid or surface modelling for engineering drawings.	Questioning + one visible observation. GT: GT5-2, GT5-3, GT5-6, GT5-7, GT5-9, GT5-10, GT5-11, GT5-12
23	**Practical**	Apply: CAD modelling, materials and manufacturing	Complete the linked activity, then apply its decision process in a supervised graphics task using current sources. **Open activity**	Explore the relationship of engineering CAD applications to CAM.	Saved activity practice + one teacher-checked graphics record. GT: GT5-2, GT5-3, GT5-6, GT5-7, GT5-9, GT5-10, GT5-11, GT5-12
24	**Project/folio**	Retain: CAD modelling, materials and manufacturing	Check 10 MCQs, draft the capstone and retain one purposeful folio record.	Investigate common engineering materials and environmental implications of material selection, and the role of engineers in manufacturing.	10 checked MCQs + capstone + selected folio evidence. GT: GT5-2, GT5-3, GT5-6, GT5-7, GT5-9, GT5-10, GT5-11, GT5-12 **Check · Folio**
25	**Site/theory**	Dimensioning, standards, assemblies and animation	Teach the named theory; model the key graphics decision; use three visuals and the complete media pathway. **Open theory**	Apply authorised AS 1100 technical-drawing conventions and standard representations of engineering elements.	Questioning + one visible observation. GT: GT5-4, GT5-5, GT5-7, GT5-11
26	**Practical**	Apply: Dimensioning, standards, assemblies and animation	Complete the linked activity, then apply its decision process in a supervised graphics task using current sources. **Open activity**	Produce dimensioned detail drawings and assembly drawings with parts information; controlled tolerances, fits, finishes and weld information require current authority.	Saved activity practice + one teacher-checked graphics record. GT: GT5-4, GT5-5, GT5-7, GT5-11
27	**Project/folio**	Retain: Dimensioning, standards, assemblies and animation	Check 10 MCQs, draft the capstone and retain one purposeful folio record. Complete the module puzzle and review.	Create assembled or exploded views and use CAD animation or simulation to communicate digital relationships without claiming physical proof.	10 checked MCQs + capstone + selected folio evidence. GT: GT5-4, GT5-5, GT5-7, GT5-11 **Check · Folio**

Assessment boundary. Current 2026 schedule: Engineering Drawing, Term 4 Week 3, 30%; the learning block occurs earlier and the exact date/issued conditions remain Teacher to confirm.

Teaching sequence · P28–P36 · Student Negotiated Project

P is an ordered program sequence point. The number and length of timetable lessons used for each point remain Teacher to confirm; rows expand during delivery through the register.

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
28	**Site/theory**	Brief, audience, criteria and constraints	Teach the named theory; model the key graphics decision; use three visuals and the complete media pathway. **Open theory**	Negotiate the area of study for a Student Negotiated Project with the teacher.	Questioning + one visible observation. GT: GT5-2, GT5-5, GT5-6, GT5-11
29	**Practical**	Apply: Brief, audience, criteria and constraints	Complete the linked activity, then apply its decision process in a supervised graphics task using current sources. **Open activity**	Select and apply appropriate standards and conventions to the negotiated project.	Saved activity practice + one teacher-checked graphics record. GT: GT5-2, GT5-5, GT5-6, GT5-11
30	**Project/folio**	Retain: Brief, audience, criteria and constraints	Check 10 MCQs, draft the capstone and retain one purposeful folio record.	Identify and apply appropriate tools, techniques and technologies to the negotiated project.	10 checked MCQs + capstone + selected folio evidence. GT: GT5-2, GT5-5, GT5-6, GT5-11 **Check · Folio**
31	**Site/theory**	Ideation, project management and digital development	Teach the named theory; model the key graphics decision; use three visuals and the complete media pathway. **Open theory**	Apply sketches to the design, development, communication and planning of project ideas.	Questioning + one visible observation. GT: GT5-1, GT5-3, GT5-6, GT5-7, GT5-9, GT5-10
32	**Practical**	Apply: Ideation, project management and digital development	Complete the linked activity, then apply its decision process in a supervised graphics task using current sources. **Open activity**	Follow a sequence in producing graphical images and generate a range of graphical images for the negotiated project.	Saved activity practice + one teacher-checked graphics record. GT: GT5-1, GT5-3, GT5-6, GT5-7, GT5-9, GT5-10
33	**Project/folio**	Retain: Ideation, project management and digital development	Check 10 MCQs, draft the capstone and retain one purposeful folio record.	Develop the negotiated project using appropriate CAD, rendering or animation software.	10 checked MCQs + capstone + selected folio evidence. GT: GT5-1, GT5-3, GT5-6, GT5-7, GT5-9, GT5-10 **Check · Folio**
34	**Site/theory**	Presentation, feedback and evaluation	Teach the named theory; model the key graphics decision; use three visuals and the complete media pathway. **Open theory**	Produce a range of graphical presentations while developing the negotiated project.	Questioning + one visible observation. GT: GT5-2, GT5-4, GT5-8, GT5-12
35	**Practical**	Apply: Presentation, feedback and evaluation	Complete the linked activity, then apply its decision process in a supervised graphics task using current sources. **Open activity**	Develop a multimedia presentation for a targeted audience.	Saved activity practice + one teacher-checked graphics record. GT: GT5-2, GT5-4, GT5-8, GT5-12
36	**Project/folio**	Retain: Presentation, feedback and evaluation	Check 10 MCQs, draft the capstone and retain one purposeful folio record. Complete the module puzzle and review.	Evaluate graphical presentations using feedback from appropriate sources.	10 checked MCQs + capstone + selected folio evidence. GT: GT5-2, GT5-4, GT5-8, GT5-12 **Check · Folio**

Assessment boundary. Learning/project context only in the current 2026 handbook: not a separate scheduled weighted formal task.
